

## SEVERE WEATHER BULLETIN #22

### FOR: TROPICAL DEPRESSION "AURING" (DUJUAN)

### TROPICAL CYCLONE: WARNING

ISSUED AT 8:00 AM, 22 February 2021

(Valid for broadcast until the next bulletin to be issued at 11 AM today)

**TROPICAL DEPRESSION "AURING" TURNS NORTH-NORTHWESTWARD AND IS NOW HEADING TOWARDS EASTERN SAMAR.**

**Hazards affecting land areas:**

**Heavy Rainfall:**

- **Today: Moderate to heavy rains** over Bicol Region, Northern Samar, Samar, Eastern Samar, Biliran, Leyte, Marinduque, Romblon, and Quezon. Light to moderate with **at times heavy rains** over Aurora and the rest of Visayas, MIMAROPA, and CALABARZON.
- **Tomorrow:** Light to moderate with **at times heavy rains** over CALABARZON, MIMAROPA, Metro Manila, Camarines Norte, Bulacan, Aurora, Isabela, Cagayan including Babuyan Islands, and Batanes.
- Under these conditions, **isolated to scattered flooding (including flash floods) and rain-induced landslides are still likely** during heavy or prolonged rainfall especially in areas that are highly or very highly susceptible to these hazards as identified in hazard maps and in localities that received significant rainfall over the past couple of days. Adjacent or nearby areas may also experience flooding in the absence of such rainfall occurrence due to surface runoff or swelling of river channels. **PAGASA Regional Services Divisions may issue local thunderstorm/rainfall advisories and heavy rainfall warnings while the Hydrometeorology Division and River Basin Flood Forecasting and Warning Centers may issue General Flood Advisories and Basin Flood Bulletins as appropriate.**

**Strong Winds:**

- **In the next 24 hours, the combined effects of the Northeast Monsoon and "AURING" will bring strong breeze conditions with occasionally higher gusts** over the areas where Tropical Cyclone Wind Signal (TCWS) #1 is in effect, as well as over Aurora, Quezon, Marinduque, Romblon, Oriental Mindoro, Batanes, Babuyan Islands, the northern portions of Ilocos Norte and mainland Cagayan, Cuyo Islands, Cagayancillo Islands, and the rest of Visayas and Bicol Region.

**Hazards affecting coastal waters:**

- **In the next 24 hours, rough seas** will be experienced over the seaboard of areas under TCWS #1, the eastern seaboard of Central Luzon, the eastern seaboard of Southern Luzon not under any TCWS (**2.5 to 3.5 m**), the southern seaboard of Luzon and the remaining seaboard of Visayas (**2.5 to 3.0 m**). **Sea travel is risky especially for those using small seacrafts.**
- **Moderate to rough seas (1.2 to 2.5 m)** will be experienced over the remaining seaboard of Luzon, and the northern, eastern, and western seaboard of Mindanao not under any TCWS. **Mariners of small seacrafts are advised to take precautionary measures when venturing out to sea. Inexperienced mariners should avoid navigating in these conditions.**

**Track and intensity outlook:**

- **On the forecast track and its probability cone, the tropical depression may initially make landfall over Eastern Samar in the next 6 to 12 hours as a tropical depression or a remnant low pressure area.**
